There was only one Vets AC woman who was fifth.

Not quite as big a turnout as last year, but still impressive. Although the above ground conditions were pretty good for November, either the going underfoot, or perhaps a longer race distance today, meant that most times were two or three minutes down on last year.

As you will see, it was a close womens' team race result with two points separating second to fourth.

In the results list, you will see that two athletes names were not written on the declaration sheets. From the numbers, I suspect they may have been Orion athletes. This would not affect the mens' team result, but might have changed the womens' result.

Sorry, I can only go on what I given. Apologies to the 28th finisher, I know his first name, but old age has left me without the surname. Bob, please fill that in for me.

I hope we will hold next year's race on an equivalent date.

Thanks to all for supporting the fixture.
