---	---------	---------------	----------------	-----------------------

The Senior event involves teams being drawn at random from pools of Fast(ish), Medium and Slow(ish) runners. Teams complete 6 laps of the 1200m course in any order/combination that they choose with everyone doing at least one lap. The whole team then complete a lap of the adjacent tennis courts together.

The Junior competitors did half the lap each

- \* Team A were allowed to finish third, despite the fact that Dave Tyson thought it was more important to have a shower than join his team mates in the lap of the tennis courts. The "jury" decided that his presence would not have slowed the team unduely and were grateful that he did not decide to abandon the shower and join his team in a state of undress!
